

# OVERVIEW

With our team of experts who each possess decades of proven experience in crisis action planning and coordination in special operations, special warfare, defense, and humanitarian support, we deliver end-to-end logistics and supply chain capabilities solutions. Leveraging data driven solutions, we develop cost effective solutions and efficiencies to deploy, deliver and distribute resources globally to enhance the readiness and lethality of your team to accomplish your mission.

# SERVICES

**Crisis Operations:** We provide implementation and support services that enable our customers to thrive, not just survive, under adversity. Our team has decades of experience with Business Continuity Planning activities, leading both Crisis Action Planning and Crisis Action Teams during events abroad and at home. Our methods are direct and collaborative; we build, we mentor, and we train. We immerse ourselves with our clients' teams...share the challenges and design processes that simplify complex issues and allow our customers to excel under the toughest conditions. Our team has significant experience leading Joint Logistics Operations Centers, comprised of over 50 watch standers, supporting all functional areas of logistics and operations, during all contingencies. Our team knows, first-hand, the big business of war and the immense complexity of supporting customer demands that span multiple Combatant Commands, the Joint Staff, and the Office of the Secretary of Defense.

**Operational Logistics and Relief Operations:** Logistics incorporates Supply Management, Services, Engineering, Medical Support, Maintenance, Transportation, Distribution, Repair Parts, Food, Fuel, Ordnance, and Contracting Support Services. Our team brings all these areas together, as part of a cohesive and comprehensive enabler for our client's operations. Our team has extensive experience in leading Joint Logistics Operations Centers/Logistics Readiness Centers at Echelon 1 with U.S. Central Command (CENTCOM) headquarters; Commander, U.S. Pacific Fleet (CPF); and the Pacific Numbered Fleets, as well as at Joint, Special Operations, and other Navy Echelon 2 and 3 levels. Our approach relies on our extensive experience across the full range of logistics functions, extensive advanced data analytics capabilities, and our experience with training and mentoring...creating an immersive, engaging experience for our clients.

**Strategic and Operational Planning Support:** We help our clients understand how their organization's purpose is connected to everything they do and understand how and where they are connected to higher headquarters guidance. Our personnel have been the logistics leads for our Nation's primary operational and contingency plans and have extensive direct experience in the development and execution of wargames, including Chief of Naval Operations GLOBAL series, OPNAV-led logistics wargames, U.S. Special Operations Command (SOCOM)-led wargames, CENTCOM semi-annual rehearsals for major theater plan, and CPF-led logistics wargames. Our personnel formerly led the development of Logistics Task Force planning in the Pacific. We understand how important it is for an organization to seamlessly connect its planning and its operations. Our team has decades of experience at the highest levels of government leading this integration and teaching our methods, instilling our techniques and experience in our customers.

**Defense Global Supply Chain:** We partner with key industry partners and stakeholders to optimize supply chain solutions based on extensive experience, proven process improvement techniques, and supported by world-class analytics capabilities. We have developed and implemented solutions that support Special Operations, Naval Expeditionary, Naval Surface, Naval Air, Submarine, and Marine Corps forces around the world, on every continent except Antarctica. Our team is a leader in the development, integration, and utilization of forward, logistics networks for Department of Defense personnel.

**Humanitarian Relief Operations:** We provide comprehensive implementation support utilizing our team's network of humanitarian support specialists and experience, across all levels of relief operations, whether abroad or right here at home in the United States. Our team of professionals has planned and coordinated the logistics operations and movement of supplies in support of numerous no-notice surges of U.S. Naval and Joint Forces tasked to provide relief following natural disasters in Haiti, Bangladesh, Pakistan, Myanmar, East Timor, Thailand, and the Philippines.
